If you are having a problem downloading and installing the Teensyduino-0018.exe when you have Norton AntiVirus running here is one possible fix.

This little bugger popped up when trying to download the Teensyduino-0018.exe

I selected the View Details link to see this:

Ah, a false positive.

So I fired up the main Norton AntiVirus software and selected "Settings" in the Computer section below.

Then in here under Exclusions -> Scan Exclusions i selected the "Configure" link.

Settings		Help & Su	oport
Computer Settings		Use Section Defaults	•
Computer Scans		Configure [+]	1
Compressed Files Scan	On On		
Data Extraction Limit	On On		
Remove Infected Compressed Files	C Off		
Microsoft Office Automatic Scan	C Off		
Rootkits and Stealth Items Scan	Cn On		
Heuristic Protection	Automatic		
Low Risks	Remove		
Tracking Cookies Scan	Remove		
Idle Time Scans	Weekly		
Number of threads for manual scan	Auto		
Exclusions			1
Scan Exclusions		Configure [+]	
Signature Exclusions		Configure [+]	
Insight Network	On On		3
Scan Performance Profiles	C Standard Trus	t	1
Real Time Protection			1
Antispyware	On On	Configure [+]	1
Auto-Protect	On On		
Caching	On On		
Early Load	On On		
Removable Media Scan	On On		
SONAR Protection	On On		1
SONAR Advanced Mode	Automatic		
Remove Advanced Detections Automat	ically 💳 🗕 Off		
Wetwork Settings			Þ
Miscellaneous Settings			2
T.		_	

I then added the directory where I want the file to be downloaded to in the "Scan Exclusions" box, and then entered the same information in the "Real Time Protection Exclusions" box.

🗞 Scan Exclusions	×
Scan Exclusions	Help
Scan Exclusions	
E:\Projects\Teensy\Teensyduino-0018	
\System Volume Information\

Add Edit Remove	
From symantec Default All Apply OK Car	ncel

I clicked "OK" a bunch of times to conclude my session with Norton. I then downloaded and installed the software without a problem.
